POTSDAM, GERMANY

Potsdam is a UNESCO World Heritage city, known as the city of palaces and gardens nestled along the idyllic Havel lakes. It is a diverse cultural hub, a UNESCO Creative City of Film, a center for education and science, shaped by over 1,000 years of history, and the capital of Brandenburg near Berlin.

Call for Special Sessions

The IEEE MetroAgriFor 2026 Organizing Committee invites proposals for Special Sessions on new or emerging topics in metrology for the agriculture and forestry that have the potential to have a major impact on the field in the near future.

Special sessions have the main aim of creating a mini-workshop on a specific topic, where researchers working on the same argument can make knowledge, familiarize, exchange ideas, create cooperation. They gather together researchers and students interested in a specific topic and can strongly contribute to the success of the conference itself. Moreover, they can be the first step for trainees and students to the organization of a scientific event.

Special Sessions are expected to be related to the conference theme or especially hot topics within the conference scope, provide a focused discussion of new and innovative topics. All submitted papers undergo the same review process.

SPECIAL SESSION PROPOSALS

Special Session **proposals** must contain the following information:

- Title of the proposed Special Session;
- Names, affiliations, and contact information of the session organizers;
- Brief biographies of the session organizers;
- Brief description of the proposed session with a list of the related topics.

Special Session Proposals must be submitted through the submission website at
